

Cancer Voices Australia

About us

Cancer Voices Australia is the independent, 100% volunteer voice of people affected by cancer, working to improve the cancer experience for Australians, their families and friends.

We are active in the areas around diagnosis, information, treatment, research, support, care, survivorship and policy. To achieve this we work with decision-makers, ensuring the patient perspective is heard.

Cancer Voices has led the cancer consumer movement in Australia since 2000. Cancer Voices organisations across Australia share the same objectives and work together on national issues identified as important by their members, with consumers working to help others affected by cancer.

What we do

Cancer Voices Australia can provide:

- informed cancer consumer views on national issues;
- representatives to participate on national level decision-making committees; and
- our “match-making” service to link stakeholders with appropriate consumer representatives.

Cancer Voices Australia’s new website at www.cancervoicesaustralia.org.

Please use the website’s online forms to request a trained, informed consumer nominee for your policy, service provision or research committee / project. The website also posts Position Statements developed with our members, which will offer the consumer view on major national level issues for people like us.

In response to stakeholder demand, Cancer Voices Australia is currently developing a template for consumer engagement for organisations to adopt in line with their own needs.

We are active on Facebook ([Cancer Voices Australia](https://www.facebook.com/CancerVoicesAustralia)) and Twitter ([CancerVoicesAU](https://twitter.com/CancerVoicesAU)). Please follow us, interact and read our views and posts. We would like to hear from you.
