

Community Conversations on Cancer

"It is time to change the experiences and expectations of cancer. It is time to marshal our collective will, our passion, our outrage, our insistence and our voices".
- Lance Armstrong -

Have your say locally, and be part of a Global Community Conversation on Cancer through an international collaboration with 'Go Public' Campaign to Control Cancer - Canada, LIVESTRONG and the International Union Against Cancer - UICC.

Cancer Voices SA invites you to join a Community Conversation on Cancer.

Community Conversations are volunteer-led events of 6 to 50 people or more, where participants share their thoughts, experiences and ideas about cancer and cancer control. You don't need to be an expert to participate. The strength of these conversations will be the breadth and depth of response we get from everyone touched by cancer, personally or professionally. They last approximately 90 minutes and are flexible so that you can focus on the issues that matter most to you.
